

## TEACHERS WANT ELMER BROWN

Council of Education "Takes  
Office" to Him.

Discusses Needs of the Small  
American Boy.

National Educational Association  
Meets.

(ASSOCIATED PRESS NIGHT REPORT.)  
DENVER, July 5.—A preparatory course to the presidency is not the object of the public school system of the United States, or, rather, it should not be, in the opinion of the leaders of the Council of Education, who spent today in a discussion of conditions that must rule the twentieth century.

The final session of the council, preliminary to the sessions of the National Educational Association, the first of which was held tonight in the Denver Auditorium, took place this afternoon. Edwin G. Cooley, former superintendent of the Chicago schools, and the discussion of what the American boy needs in the way of education.

The question of the scope that should be given State school executives, occupied most of the afternoon session.

M. H. Schley, president of the Iowa State Normal School, said that uniformity should exist among the States in the government of the schools, and that much better progress would be made were the State Superintendents of Education given wider powers.

This view was furthered by Edwin T. Fairchild, Superintendent of Public Instruction of Kansas, who suggested the commission plan for school government. Mr. Fairchild proposed the appointment of the State Superintendent by a board of education. This, he believed, would obviate the possibility of an incompetent official holding office.

The political side of the teachers' gathering has been felt but little thus far, except that an attempt has been made to throw politics out of the association.

A few leaders believe this can be brought about by "taking the office to the man," instead of making the race for office.

To this end, it is proposed to nominate Elmer E. Brown, National Commissioner of Education, for president.

It is said he is not an active candidate.

Thus far it seems as if Mr. Brown would receive the nomination. It is believed there will be no opposition to Irwin Sheppard, of Winona, Minn., for secretary.

FIGHTS FOR WOMAN.  
Woman suffrage came to the fore for a moment this morning when John MacDonald, editor of the Western School Journal, Topeka, Kan., spoke at the meeting.

Mr. MacDonald was comparing the ease of the present day county superintendent, the use of a carpet being extended him, as against the horseback circuit riding of former superintendents, when he suddenly left his subject and shook a finger at his audience.

"In Kansas," he said, "fifty-five out of an approximate 100 county superintendents are women. Now then, what a narrow being man is! He is willing to let more than half the county schools of his state be ruled by women, thereby acknowledging their superiority, but he is not willing to admit that the knows enough to vote for the incumbent of that office."

Nathan C. Schaefer, state superintendent of schools, of Pennsylvania, offered an impassioned plea for women to be appointed by the boards of directors of counties and never to be removed by the legislature. He said he did not believe in the elective system because it tended towards political party influence and never the certainty of obtaining a competent official.

In the general discussion which followed an address by Edwin G. Cooley of Boston, former superintendent of schools of Chicago, James A. McLaughlin, president of the University of Illinois, said that the twentieth century will deal with the education of the individual as a future member of various social, economic and political groups and the adjustment of the school to its environment.

BUTLER ON INDIANS.  
Dr. Nicholas M. Butler, president of Columbia University, made a few remarks before the Department of Indian Education.

This morning the last day's work of the National Council of Education was taken up with a discussion on rural school supervision, led by Nathan C. Schaefer, State Superintendent of Public Instruction of Pennsylvania, Robert J. Aley of Indiana, John MacDonald of Topeka, and Charles McKinney of Milwaukee, took part.

This afternoon the council closed its sessions with a discussion of the administration of public education systems.

The departments of religious education, and the education of the Indian also began their sessions today.

STATE MUST HELP.  
"The greatest problem in education today is the industrial training of the common people so as to enable them individually to give more productive service," said Homer H. Searley, president of the Iowa State Normal School, Cedar Falls, Iowa, in his address before the Department of Rural Agricultural Education. "All other education must be conducted in groups, but this must be personal and individual. All others are somewhat similar, but this must be adapted to each individual and calls for a slightly different solution. Improvement in mechanical lines of education is comparatively easy because it deals with the populous and wealthy community and does not call for extravagant expenditure per capita; but agriculture must be taught in a sparsely-settled community and at great expense per capita. Agriculture is not one occupation or branch, but many occupations and branches. It depends not upon a single science, but many sciences. It represents in results not a single kind of skill, but many kinds of capabilities."

"The nation and the State ought to be interested in this agricultural problem, because if these classes of our workers do not prosper, all other classes fail. The country schools are thus the most important of all schools that are maintained, because those educated therein become the foundation of all business prosperity for all other vocations. The work of conducting such training is too expensive to rely upon the country school districts alone, and the rest of the State must help."

NEW YORK POLICE NIP WAR

OF CHINESE TONGS IN BUD.

(ASSOCIATED PRESS NIGHT REPORT.)

NEW YORK, July 5.—Hon. Hing, a young Chinese laundryman, who said he was merely celebrating Independence Day, was arrested in Chinatown tonight, suspected of preparing for a little civil war, which the police believe is brewing between the two Chinese tongs or societies—the Ong Leong and the Hip Sing.

Hon. Hing had a revolver loaded with bullets. Officers of the Chinese Embassy at Washington had advised the New York police earlier in the day that trouble among the Chinese was imminent, and sixty extra officers were stationed in Chinatown today.

Acting under orders from Washington, the Chinese consulate in this city caused to be posted today in all houses in Chinatown, and on the front of several buildings, the following warning:

"To Law-abiding Chinese in New York: Word having reached the State Department that recent events have precipitated the danger of a war between the Hip Sing Tong and the Ong Leong Tong, you are hereby warned by the representatives of the Chinese Government that the Chinese Government will not tolerate any act of violence or lawlessness on the part of its citizens. You are urged to keep to your homes, keep on the lighted streets, and do not discharge firearms, or use any kind of weapons. Be courteous in your treatment of all citizens, and also the police."

"The Imperial Chinese Consulate."

Meneta was dismissed on his own recognizance and will be tried in Police Court. The stick struck the young man on the head, and he is suffering intensely from his injuries.

BUSINESS MAN IS

VICTIM OF FOURTH.

(BY DIRECT WIRE TO THE TIMES.)

MOOREHEAD, July 5.—D. W. Tulloch, manager of the local light and power company, was severely injured this afternoon while descending in a balloon in which he had taken a flight as the guest of Capt. Mitchell and Ed. Mitchell.

Mitchell was painfully scratched and bruised. While the men were landing a strong gust of wind struck the gas bag and the occupants were pinned to the ropes and braces and the basket in which they were riding. Only the immediate lull of the wind and the shouting of the men saved the lives of the three men.

The ascension was one of the features of the Fourth of July celebration here.

NOISE SCARES TEAM

AND FIVE ARE HURT.

(BY DIRECT WIRE TO THE TIMES.)

RENO (Nev.) July 5.—(Exclusive Dispatch.) Five persons were seriously injured in a runaway accident in Virginia last evening. The runaway occurred on a crowded street.

The injured are: Roy Williams of Reno, who sustained severe injuries to his back and legs; a man named by being struck on the head by the pole of the carriage; Johnny Harris, a local boy, who was thrown from the carriage; and a woman named by being struck on the head by the pole of the carriage.

The broken team was attached to the Butters' float, one of the largest in the parade, and was being driven by a man named by being struck on the head by the pole of the carriage.

The accident occurred in front of Schorr's drug store, where the parade was taken and attended by Dr. Sullivan.

FATAL MISTAKE

KILLS BALLOONIST.

(ASSOCIATED PRESS NIGHT REPORT.)

PORTLAND (Me.) July 5.—Mistaking the promiscuous firing of revolvers for the sound of a signal agreed upon for cutting loose his parachute, James Corcoran, an aeronaut, aged 28, of Lowell, Mass., cut loose when about 500 feet from the earth at the Fourth of July celebration here today and was dashed to the ground, meeting almost instant death in the presence of 5000 persons.

Corcoran was employed by Prof. Joseph Leroux of this city, with whom the municipal authorities contracted for balloons, ascensions and parachute jumps today. It was arranged that Corcoran should drop with his parachute from a height of 5000 feet, striking the ground about a thousand feet from where the ascension was made. He was still alive when picked up, but his skull was fractured and he soon died.

BALLOON LEAKS.

AERONAUT DROWNS.

(BY DIRECT WIRE TO THE TIMES.)

GRAND RAPIDS (Mich.) July 5.—(Exclusive Dispatch.) The Independence Day celebration in Grand Rapids ended with a fatality. Prof. Ehrhart of Chicago, an aeronaut, met death in the Wisconsin River in descending from a trip toward the clouds.

Ehrhart had made an ascension at 5 o'clock in the afternoon, and a sudden change in the wind caused him to be scheduled to set off a large amount of fireworks from the balloon. When he was 500 feet in the air, however, the balloon was seen to suddenly collapse, and though he tried to cut loose his parachute he was unable to free himself from the rapidly sinking balloon, and was drowned in sight of thousands.

It was found afterward that a big leak in the balloon was the cause of the accident. It is presumed that Ehrhart, who has only one arm, was unable to escape from the folds of the silk when he dropped into the river.

UNCLE SAM'S DOUBLE

LET OUT FOR PARADE.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, July 5.—(Exclusive Dispatch.) George Campbell, an inmate of the Soldiers' Home and a citizen of South Carolina, has a beard that fits him for the role of Uncle Sam. In today's formal parade George did not pay much attention to the safe and sane Fourth of July spirit in Washington and landed in a police station cell. The judge released him to save the formal parade from complete failure.

GIVES THANKS FOR AID.

Japanese Ambassador in Fourth of July Address, Acknowledges Indebtedness to United States.

(ASSOCIATED PRESS DAY REPORT.)

PHILADELPHIA, July 5.—Baron Kogoro Takahira, Japanese Ambassador to the United States, was the orator of the day at the Fourth of July exercises at Independence Hall here today. Speaking of the great powers of the world and their responsibilities, the Japanese Ambassador said:

"As for Japan, she was not only introduced into the community of nations through the agency of American diplomacy, but has been always encouraged by the friendly action of the United States. Japan has been continually endeavoring to improve herself in politics and social conditions so as to make herself worthy to nations as to individuals, even when we were still in a more modest position."

"The United States recognized Japan's tariff autonomy before any other nation, and she has been a great ally, in taking the initiative in 1904, to abolish the extrajurisdiction in Japan, which might be called our international emancipation. This strongly encouraged by the friendly action of the United States, Japan has been continually endeavoring to improve herself in politics and social conditions so as to make herself worthy to nations as to individuals, even when we were still in a more modest position."

"We are using every effort in our power, however limited it may be, to help our neighboring countries to improve themselves in politics and social conditions so as to make themselves worthy to nations as to individuals, even when we were still in a more modest position."

"We shall therefore be happy to see the United States continue to help us in our efforts to improve ourselves in politics and social conditions so as to make ourselves worthy to nations as to individuals, even when we were still in a more modest position."

## DISAGREES WITH THE PRESIDENT.

GOVERNOR OF FLORIDA TALKS  
AT TAMMANY HALL.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, July 5.—Gov. Albert W. Gilchrist of Florida was one of the speakers at the Fourth of July celebration of Tammany Hall today.

After paying a high tribute to the organization, its accomplishments and services, Gov. Gilchrist turned national issues, declaring that "great as the possibilities are for the future growth and development of this country, yet his greatest worry would be but as a whole, the country is in a state of decay."

Within full of dead men's bones if the policy of the present ruling power in this nation is to continue."

Gov. Gilchrist condemned the centralization of wealth by "legalized robbery," declaring "it is bound to result in the elimination of the middle classes and the draining of the wealth of the masses into the hands of the few."

The Governor said he was opposed to the agitation of the unconstitutional Federal constitution being started by any southern Legislature or State.

"It can safely be affirmed," said he, "that sooner or later, when the Asiatics become voters in California and elsewhere on the Pacific Coast, or when the colored contingents of Springfield, Ill., and of Springfield, O., or of Pittsburgh, or of other cities and States, become too aggressive, this question will be settled right."

"Instead of discussing the race question as it exists in the South, I will invite your attention to it as it now exists in the neutral territory—the far western States."

"Suppose this element, Chinese and Japanese, who are now in the South, vote practically as a unit, don't you suppose that the white people of California would combine so as to preserve their very civilization?"

"Suppose this condition existed throughout the entire Pacific Coast and the Rocky Mountain States, don't you suppose that Mr. Taft would have his hands full in showing these people that there shall be more than politics in the South? Don't you suppose you would hear of the 'Solid Pacific'?"

"I don't know," said the Governor, "but I think the Southern States than for the white people to divide, and the fighting of the balloon was the result of the negro."

NO LIMITATIONS IN AGE.

Two Women Over Seventy Complete Tour of the World, Visiting Many Remote Districts.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, July 5.—(Exclusive Dispatch.) Mrs. William C. Grant, 75 years old, and her sister, Miss Catherine A. Baker, 72 years old, were passengers on the ship "Princess" today, which is bound for the Orient.

The septuagenarians rounded out one of the most remarkable trips on record, circling the globe as well as making many incidental tours in India and the Orient, and making a total of more than 80,000 miles in the last 10 years.

The smiling old ladies are anything but travel worn, and stepped down the ship's gangway with the ease of a young girl.

"Frightened?" asked Miss Baker in response to a question. "I should say not. Of course we engaged attendants to take us to the different countries through which we wandered to attend to our needs and secure us from any unexpected dangers. Throughout the entire trip we were never insulted, and everywhere, the orientals as well as the sea pirates as Morocco, seemed to bow to our gray heads."

"The Asiatics seem to have a reverential respect for age, for everywhere we went, the natives stood at attention as we passed. We were perfectly safe at all times and never feared."

THAT AERIAL SPOOK AGAIN.

LONDON, July 5.—According to the Daily News, the airship ascended today about various parts of Great Britain last May, was a 200-horsepower craft, 150 feet long, 30 feet wide, and was built by Dr. William M. Boyd, who claims that in his experimental flights he crossed the Irish Channel at a speed of 120 miles an hour, covering a total distance of ninety miles.

On another occasion, the doctor claims to have traveled 350 miles, making only one descent.

## SMILING TAKE DEATH PLUNGE.

Unknown Man and Woman  
Go Over Dam Together.

Male Smokes and Companion  
Laughs at Brink.

Both Ignore Warning of the  
Crowds on Shore.

(BY DIRECT WIRE TO THE TIMES.)

SOUTH BEND (Ind.) July 5.—(Exclusive Dispatch.) An unknown couple, a man and woman, swept over a dam in a rowboat on the St. Joe River near Island Park, a pleasure resort this afternoon. The plunge was with suicidal intent. The two were drowned. Hundreds of spectators who saw their danger, shouted warnings, but just as the boat neared the top of the dam the man stood up and smiled at his would-be rescuers, calmly smoking a cigarette.

The woman was dressed in lavender. As the boat drifted toward the dam, those on shore saw her talking and laughing with her companion. When the couple came within three or four hundred feet of the dam some of those on shore called to them, but they were a dam just below them. The man in the boat laughed back at the crowd. Then the man leaped to his feet and another man leaped and stood laughing at the crowd as the boat reached the top of the dam. Then it disappeared in the water below. A few minutes later it was seen, overturned, floating down stream. The bodies of the couple have not been recovered.

THIEVES CELEBRATE.

Observe Fourth by Appropriating  
Others' Possessions—Woman's  
Sweetest Suspected.

Miss E. Achidiotis of No. 327 South Grand avenue reported to the police that on Sunday night, thieves entered her apartment. The money was hidden in her bed, the young woman stated, and this fact was known only to her sweetheart. The police are searching for the thief.

James Strain of No. 1148 South Pedro street reported that while he was asleep, Sunday night, thieves entered his room and stole \$50 from his purse.

Henry Johnson of Huntington Park awoke in a rooming-house at No. 255 1/2 East First street yesterday night, to discover that his trousers' pocket had been cut and \$21 taken. He fell asleep with his clothes on, and failed to lock the door.

A. T. Winterkill of No. 1522 Ingraham street reported that while he was erecting a reviewing stand on South Broadway, Sunday afternoon, a thief took \$10 from his coat.

The homes of C. L. Oshery of No. 3600 Halldale avenue and F. M. York of No. 124 East Forty-third street were entered Sunday and small articles of jewelry stolen.

The pickpockets, who made a rich haul at the Pacific Electric Depot Sunday morning during the celebration of beach-going crowd, returned to the depot yesterday morning and turned another trick, robbing E. O. Hollingsworth, a guest of the Hotel Walden, of a purse containing \$10.

NO ACCIDENT THIS.  
WAITED FOURTH TO MURDER.

(ASSOCIATED PRESS DAY REPORT.)

NEW YORK, July 5.—What was at first believed to have been a Fourth of July casualty, the police now believe was a successful plot to murder.

Joseph Pagano, a cigar-maker, was shot through the heart by a rifle ball as he was about to climb into his bed in a rear room on the third floor of his home at No. 223 Christie street, early today.

His wife did not hear the report of a shot, and it was not until his clothing was removed that the bullet wound was discovered.

The first police on the scene attributed the death to a bullet fired by persons celebrating the holiday, as there was much shooting immediately after midnight. Later, however, Mrs. Pagano declared the life of her husband had been threatened because of troubles among certain Italian secret societies.

Then the police investigated further and found that Pagano had been shot by a rifle and not by a pistol.

A number of detectives were placed on the case and before daylight four men were found on the roof of the building across the street. They were hiding behind a fight shaft, and were arrested.

In a room occupied by two of the men on the fourth floor of the building, a rifle which had been recently discharged.

OFF GOES LEG.  
CLIMAX OF WOMAN'S ROW.

(ASSOCIATED PRESS DAY REPORT.)

NEW YORK, July 5.—Mrs. Mary de Marco, aged 36, is in the Jersey City jail charged with shooting off the left leg of her step-daughter, Mrs. Margaret Carlo.

The two had quarreled about the division of some property and Mrs. Carlo, who is 24 years old, declared her aged step-mother had waited behind the door until she passed and then fired an old-fashioned single-barreled shotgun at her, carrying her leg off at the knee.

Mrs. de Marco, who declares it was an accident, had been arrested before on one occasion, for hitting a policeman's hand. When the police arrived at Mrs. Carlo's home they found her dismembered leg sticking in the plaster of the wall where it had been lodged by the force of the explosion.

CRIME BRIEFS.

Fire Observers.

COLORADO SPRINGS (Colo.) July 5.—Law H. Warringer, caretaker for the Hotel Observatory at Prof. Fred H. Low of Colorado College, committed suicide early this morning by shooting himself after first having drenched the observatory with kerosene and fired it in three places. An examination of the burned structure shows that great damage was done to the scientific instruments, but the exact loss is not known. Special work for Harvard University was being conducted at the time of the fire.

LING NOT ON CHINA.  
Pacific Mail Steamer Searched in Vain  
at Yokohama for Murderer of  
Elsie Sigel.

(ASSOCIATED PRESS DAY REPORT.)

YOKOHAMA, July 4.—The Pacific Mail liner China, which arrived from San Francisco today, has been ordered into quarantine, as one of the stewards aboard was discovered to be ill with smallpox.

In response to cable requests from New York the Yokohama police have been watching every steamer arriving from the United States to arrest Leon Ling, the Chinese wanted for the murder of Elsie Sigel. The crew of the China was looked over and the ship searched without result.

YIELD TO VANDERBILT.  
Chicago Sportsmen Will Surrender  
Lease of Piggish Forest Rather  
Than Stand Suit.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, July 5.—(Exclusive Dispatch.) The Baltimore Red and Blue clubs, composed of Chicago sportsmen, headed by James A. Fugh, being unwilling to go into a lawsuit threatened by Vanderbilt, have yielded to his insistence that the ten-year lease of his 500-acre Piggish Forest be surrendered to him by Dr. Schenck, head of his forest department, was made without his authority. They will surrender the lease on repayment of two years' rental paid in advance and expenses incurred. The club is seeking to negotiate a new lease with Mr. Vanderbilt, and to carry out his plans for the largest preserve in America.

GEN. SIMON IN WRECK.  
PORT AU PRINCE, July 5.—Gen. Antoine Simon, the President of Haiti, had a narrow escape in a serious rail accident near Baudet last night. The President's train collided with a freight train. Several cars were wrecked and ten soldiers were killed, while many others sustained injuries. The President was not hurt, and after giving orders for the clearing away of the wreckage and the caring for the injured, he mounted a horse and rode back into Port Au Prince.

MAYOR ROSE HAS ACCIDENT.  
(BY DIRECT WIRE TO THE TIMES.)

MILWAUKEE (Wis.) July 5.—(Exclusive Dispatch.) Mayor David S. Rose had a narrow escape from serious accident today, when he ran the automobile he was driving into the curb. In an effort to evade killing Frank Bishop, well-known in the local political districts, Bishop was knocked down and injured. The Mayor had just left down town and was driving at a moderate pace when Bishop stepped in front of the machine. Bishop was struck by the wheel and the steering wheel struck him, but could not evade striking Bishop, who was thrown fifteen feet and picked up in a badly bruised condition. His injuries are declared to be comparatively slight. The injured man is 72 years old and slightly deaf. The Mayor explained that the accident was due to Bishop's apparently having failed to hear the alarm signals and to his own belief that the man intended to step aside in time to avoid being struck.

NEGRO HOUSE DYNAMITED.  
(BY DIRECT WIRE TO THE TIMES.)

KANSAS CITY, July 5.—(Exclusive Dispatch.) A house at No. 2707 Highland avenue, one of a row of five built for negroes by the King Realty Company, was blown up by dynamite at

about the death to a bullet fired by persons celebrating the holiday, as there was much shooting immediately after midnight. Later, however, Mrs. Pagano declared the life of her husband had been threatened because of troubles among certain Italian secret societies.

Then the police investigated further and found that Pagano had been shot by a rifle and not by a pistol.

A number of detectives were placed on the case and before daylight four men were found on the roof of the building across the street. They were hiding behind a fight shaft, and were arrested.

In a room occupied by two of the men on the fourth floor of the building, a rifle which had been recently discharged.

OFF GOES LEG.  
CLIMAX OF WOMAN'S ROW.

(ASSOCIATED PRESS DAY REPORT.)

NEW YORK, July 5.—Mrs. Mary de Marco, aged 36, is in the Jersey City jail charged with shooting off the left leg of her step-daughter, Mrs. Margaret Carlo.

The two had quarreled about the division of some property and Mrs. Carlo, who is 24 years old, declared her aged step-mother had waited behind the door until she passed and then fired an old-fashioned single-barreled shotgun at her, carrying her leg off at the knee.

Mrs. de Marco, who declares it was an accident, had been arrested before on one occasion, for hitting a policeman's hand. When the police arrived at Mrs. Carlo's home they found her dismembered leg sticking in the plaster of the wall where it had been lodged by the force of the explosion.

CRIME BRIEFS.

Fire Observers.

COLORADO SPRINGS (Colo.) July 5.—Law H. Warringer, caretaker for the Hotel Observatory at Prof. Fred H. Low of Colorado College, committed suicide early this morning by shooting himself after first having drenched the observatory with kerosene and fired it in three places. An examination of the burned structure shows that great damage was done to the scientific instruments, but the exact loss is not known. Special work for Harvard University was being conducted at the time of the fire.

LING NOT ON CHINA.  
Pacific Mail Steamer Searched in Vain  
at Yokohama for Murderer of  
Elsie Sigel.

(ASSOCIATED PRESS DAY REPORT.)

YOKOHAMA, July 4.—The Pacific Mail liner China, which arrived from San Francisco today, has been ordered into quarantine, as one of the stewards aboard was discovered to be ill with smallpox.

In response to cable requests from New York the Yokohama police have been watching every steamer arriving from the United States to arrest Leon Ling, the Chinese wanted for the murder of Elsie Sigel. The crew of the China was looked over and the ship searched without result.

All Races of Earth Join in City's Celebration.

Throngs at Parks Applaud Orator's Eloquence.

Capacity of Car Lines Taxed by Rush to Beach.

INDEPENDENCE DAY, as celebrated yesterday, was in marked contrast to previous Fourth of July observances. The booming of the surf proved more attractive than the popping of firecrackers, and mountain brooks lured many from the traditional ways of ushering in the day. If a "safe, sane Fourth" is now the fashion, Los Angeles is surely in style. The day was noteworthy in that few accidents of any consequence were reported. The police and fire departments were agreeably disappointed. Patriotic sentiments were aroused by stirring speeches at parks and groves, and the children were made glad by simple exercises at the city playgrounds. It is estimated that at least 125,000 persons sought the seashore, and probably a quarter as many went to sylvan dells or cool mountain retreats.

Patriotism, virile and intense, made appeal to all of the five senses of the Angeleno yesterday. Its call was a cumulative one, extending from the midnight moments which ushered in the important date until the last minutes of the full twenty-four hours. Large, stately flags swinging across the downtown business streets waved cheerfully in the breeze. Smaller flags and hundreds upon hundreds of yards

idea is meeting with approval here, as elsewhere in the country. While there appeared to be no lack of crack-cracks and other inflammable deers to the heart of boyhood, there were few serious accidents. In the business district, the police kept a watchful eye upon those who seemed inclined to overdo things.

Among the enjoyable features of yesterday were the celebrations at the city parks and groves.

SPORT FOR EVERYBODY.

Sporting devotees found plenty to amuse them. Thousands attended the morning and afternoon ball games at Chutes Park. Golfers met at the Country Club grounds morning and afternoon, and many went to Vineyard station to see the cricket match between the Los Angeles Cricket Club and the Santa Monica team. In the downtown districts hundreds watched the returns from the Ketchel-Papke fight, and a big crowd gathered on North Broadway to hear the megaphone bulletins given by The Times.

GREAT RUSH TO BEACH.

Tens of thousands went to the beaches. Traffic men estimated that more persons visited the seashore yesterday than on any one day since the arrival of the battleship fleet of San Pedro. The local lines carried about 15,000 passengers, including an army from Pasadena and interior cities. Nearly one thousand suburban cars were in operation from early morning until about midnight. The schedules provided for a frequent service of two and three-car trains to Long Beach, Venice, Ocean Park and other coast resorts.

Traffic was heaviest at the Pacific Electric station, where more than 80 cars were pressed into service. Some of them were of the old type, which have not been out of the barns for months. But the crowd of pleasure seekers did not mind the appearance of the coaches, if they could get seats or even standing room.

Six ticket sellers were kept busy from early in the morning until shortly after noon. At one time the rush became so great that beach tickets were placed on sale in the main entrance of the station. The schedule was maintained to Long Beach, San Pedro, Huntington Beach and Balboa, the greater part of the day, but during rush hours, trains ran every two minutes.

Despite the jam at the entrance to the station, the Pacific Electric trainmen handled the crowd in approved fashion. That there were no accidents speaks well for the transportation facilities.

There was also a big crowd at the Hill-street station of the Los Angeles Pacific Railroad. At the busiest time of the day cars left every minute for Venice, Ocean Park and Santa Monica. Two and three-car trains were used as far as possible, the single cars being sandwiched in between to care for the "left-overs." It is estimated that about 40,000 persons were carried by the Los Angeles-Pacific during the day.

The Los Angeles and Redondo line operated two-car trains every five minutes to Redondo, carrying about

**CURRENCY AND GOLD VANISH.**

Railroad Strong Box: Loses Lot of Cash.

Much Mystery About the Disappearance.

Part of Receipts for the Fourth Taken.

More than \$3700, a part of the day's receipts of the Los Angeles Pacific company, was stolen from the strong box in the company's office on South Hill street, near Fifth, some time Sunday night.

A dense veil of mystery surrounds the disappearance of the money. Captain Plummer of the police department and the detectives working on the case are of the opinion that the case was taken by an employee of the company.

The Tain lock on the door leading to the room where the strong box was kept had apparently been opened with a key. It showed no marks of having been tampered with. The combination on the strong box had been worked. The box was found closed yesterday morning with the combination intact, but the lid could be lifted without trouble. The police advance no theories other than that the job was done by some man inside the office who in some way learned the combination and secured a key that would fit the lock of the door leading into the room.

WHEN MONEY POURED IN.

The receipts for the Fourth of July were unusually heavy. The beach traffic was enormous and all day long passengers poured money into the window. In the evening a careful count of the receipts was made, and the money was put in the strong box by the cashier. He turned the combination, according to his statement, and left the room, closing the door securely behind him. The lock snapped into place, making the room secure against intrusion. According to his further statement he put somewhere in the neighborhood of \$3000 in gold and currency into the strong box. Several hundred dollars in silver was also put in the box. Yesterday morning when the room was entered and an account taken, it was found that the gold and currency had been removed. The silver had not been touched. For this reason the police believe that one man did the job, and that the gold and currency was about all the money he could comfortably carry away with him without being noticed.

FINGER PRINTS NOTED.

A careful search of the premises was made, but no clue was obtained. A few finger prints on the woodwork of the doorway may or may not offer a clue to the identity of the man who robbed the box.

The company officials stated to the police that three men had the combination of the lock on the box and four men carried the keys to the door of the room where the box was kept.

The cashier, assistant cashier and auditor knew the combination. They also carried keys to the room, as did the janitor. It is believed they were watched while working the combination in putting away the money, and that in this way the robber learned the proper letters to turn the lock. An impression of the key used in the lock on the door could have been obtained without much difficulty by a clever thief.

The police are making an effort to get some of the numbers of the bills so that a watch can be kept for them. Efforts to reach any of the Los Angeles Pacific officials yesterday failed. President E. C. Clark was reported out of the city. R. F. Sherman, general manager, was at his desk during the afternoon, but was inaccessible to callers. Later at his residence it was said he would not be in until today. Cashier G. H. Clark, caught the vanishing fever, and was not located, not withstanding frequent calls at his residence.

Around the central offices an air of secrecy was observed; no one apparently knew anything of the robbery.

SUCCESS

ALWAYS TELLS A TRUE STORY.

Behind the career of the individual who succeeds in any walk in life will be found genuine merit with untiring industry and persevering energy. Success is not accidental; neither is it accidental that the volume of classified "Liners" printed in the Los Angeles Times exceeds the volume printed in any other newspaper in the United States. This tremendous mass of advertising comes because back of it is true merit in the form of character and circulation—the steady patronage of the solid classes who are regular readers of The Times. They peruse its news columns daily because they have been made to know by years of experience that it prints the most news—as well as the most reliable news—that from its columns are barred revolting crimes and all the "yellow" and immoral stuff which is made the leading feature of so many daily newspapers.

Thus it happens that the readers of The Times, being men of affairs, men of character, brains, standing, and with the wherewithal to "make the wheels go round," render the tens of thousands of business announcements appearing monthly in its "Liner" pages valuable to the advertiser, thus leading all who wish to make announcements to the business men of this community straight to the "Liner" columns of The Times.

Taking a beach car by storm

of red, white and blue bunting gave a harmonious background and created the "atmosphere" of patriotism. Holiday crowds, were everywhere, and everywhere were touches of the American colors seen in dainty bows or knots on gowns or hair of pretty girls and hatbands, ties, buttonholes or be-ribboned cases of young men. Vehicles, from baby carriages to touring automobiles, carried the national colors in profusion. Such was the appeal to sight.

Popping of firecrackers, sizzling of fiery serpents, booming of giant crackers and roaring of guns; patriotic band music, the burning words of orators instilling principles of good citizenship and love of country—these were recorded through the sense of hearing.

The spread of good things from hamper and basket, which never have such delicious flavor as when served in true picnic style in the shade of trees or on the clean stretches of sand at the beaches, the vari-colored drinks and the display of fruits made their appeal to the sense of taste.

And all these, combined with the seething spirit of pride in citizenship in such a country as this, and love for our own dear California (such an important part of this great America), were blended into one harmonious whole and rounded out by the patriotic programmes given in the various public places of the city, until the sense of feeling was taxed to the utmost, and there resulted an exaltation that made for the increase of loyalty to the Union.

The public patriotic programmes were excellent, and these, with athletic sports and other amusements, made the celebration of Independence Day in Los Angeles memorable.

WEATHER IDEAL.

The weather was ideal. Former residents of the East remember the inevitable hot Fourth, with a terrific thunderstorm in the afternoon, followed by mugginess. Here the maximum temperature was 74 degs.; the minimum, 61 degs. There were cool breezes, too. The day was also remarkable for its comparatively light casualty list. It is apparent that the "safe Fourth"

"Hands around" at Sycamore Grove

Patriotic ceremonies, beach trips and picnics afforded pleasure to a quarter of a million people of Los Angeles.

10,000 passengers, altogether. In addition to the beach rush, thousands were carried to Mt. Lowe, Rubio Cañon, Ostich Farm and many other points of interest. In the city proper, the Los Angeles Railway Company had about 400 cars in commission. They were used mostly in transporting persons to the various parks. The greatest difficulty experienced last night was in getting the crowds back to town. Many took advantage of the double holiday and went to the beaches Saturday evening. Early last night the rush for home began, and

Pico street is used as a speedway after dark by automobile drivers. Several witnesses stated that Mattoon was going faster than forty miles an hour when he passed a Pico Heights car. F. W. Penrod, who lives at No. 1219 El Molino street, had just alighted from the car. The automobile struck him and threw him fully twenty feet

through the air. He alighted in the gutter only a short distance away from where Patrolman Murray was walking his beat. The officer hurried up. Penrod, lying on the ground, bruised and cut, turned on his side and pointed toward the speeding automobile. Instead of stopping, Mattoon was getting away as fast as possible. Turning the injured man over to the care of bystanders, Murray ran to the street. A young man, driving a seventy-horse-power automobile, was going

# HALL PLANNED FOR VETERANS.

Memorial Building Project Launched Yesterday.

Would Accommodate Various Patriotic Bodies.

Construction May Commence Next Winter.

The project of erecting a memorial hall in Los Angeles for the veterans of the Civil War was launched yesterday at the Independence Day celebration held in Sycamore Grove. It was given a practical start by a quick subscription of more than \$200 to the fund, and it is to be presented in a systematic manner to the various patriotic organizations of this city and immediate vicinity.

It is proposed to erect in Los Angeles a three-story building of brick or concrete, which shall become the headquarters for all the patriotic societies of the city, and which shall have a museum hall in which will be gathered relics and much historic material of the Civil War period. The building is designed to stand as a lasting monument to the veterans, and by its presence and the inscribed tablets which will be placed in its walls, to teach patriotism to every one who passes by.

**ITEMS IN PLANS.**

The plans provide stores on the ground floor of the building, the general dimensions of which are to be 100 feet by 100 feet. The basement is to be arranged for a kitchen and dining room, so planned that they may all be thrown into one large banquet hall when occasion demands. The third floor will have four medium-sized halls and one large hall, which will be of sufficient size to accommodate gatherings in which all patriotic societies wish to participate.

It is estimated that to complete this project will require an outlay of from \$75,000 to \$100,000, which figure includes the price of a site. Several locations have been discussed, but it is probable that the one selected will be on Flower street.

The architect's drawing of the proposed building, which is reproduced here, was shown to the assembly at Sycamore Grove yesterday by W. S. Daubenspeck, Department Commander of the G.A.R., and the general plans were approved.

Col. Gilbert T. Munson, who was chairman of a committee which erected a hall of similar design at the purpose of this movement there, and set forth the point that it has made Sycamore Grove an invaluable as a constant lesson in patriotism.

Mayor Alexander began his address with an urgent appeal to the citizens of Los Angeles to give substantial aid to the movement, and after a general patriotic talk, closed with a similar exhortation.

**SUBSCRIBE PROMPTLY.**

Department Commander Daubenspeck asked for a start on subscriptions, and as rapidly as their names could be recorded, Civil War veterans on the grounds gave subscriptions of \$10 and \$20 each until more than \$200 was pledged.

This is but a starter, say the men who have the plan in hand, but they say that from now on their names will be pressed, and that all patriots in subscriptions will be urged to garb in subscriptions, while the veterans in so act as a soliciting committee among his personal friends.

It is hoped the funds sufficient to secure the desired site may be secured before fall, and that means can be provided for the beginning of the building in the coming winter.

Many valuable war relics are to be placed in the hall, and it is believed that by providing a proper museum for their care, most of them may be secured and assembled in one spot.

**CITY PLAYGROUNDS.**

**CHILDREN OBSERVE DAY.**

In this city of progress the children are not deemed to be "hot" but "lucky" because the "grown up" on holiday occasions.

At the three playgrounds, yesterday, there were the usual celebrations for the boys and girls. They enjoyed everything patriotic except firecrackers.

Playground No. 2, at Echo Park, has quickly become the favorite, and draws the main crowd on holiday occasions. Yesterday the lake's surface was covered with pleasure craft of all kinds loaded to the gunwales. The little side-wheel motorboats, the sail boats and innumerable skiffs were constantly skipping about like mosquitoes.

The big athletic field, fronted by a magnificent lawn and shaded by trees, was filled with a happy, romping throng, engaged in all sorts of amusements, while under the trees, overlooking the scene, their elders sat in the shade.

Superintendent Best brought out in attraction in the shape of his flag ground band. When full, it contains thirty-two little girls, but only part of them were there yesterday.

The organization played the national anthem, and then two little girls, drummers, and six girls playing horns, whistles and other instruments, understood and applauded. He told his young auditors of the sacrifices that have been made for the cause of liberty, and explained that the best way for them to show patriotism for their country is to live right and become honorable and upright citizens.

The athletic sports were under the direction of Fred McCullough, and included foot races, a shoe-hustle, flag races, sack races, and three-legged races. The merry-go-round, which was in the neighborhood of the park had provided a number of prizes for the winners.

At the Violet-street playground there was another large crowd. An eloquent address was delivered by Grove Walker, in which he held up high ideals of patriotism.

At Recreation Center, St. John and My streets, the assembly was rather small, owing to the fact that the space is limited and the athletic apparatus not complete, but were indulged in and a patriotic talk was made by Dr. W. A. Lamb, president of the Playground Commission.

**LONG DISTANCE HUNT.**

ST. LOUIS, July 6.—A spent bullet from an Imperial Springfield army rifle, fired by militiamen camped in Forest Park, yesterday struck Warren P. Hauck, a peddler, at Eighth and Market streets five miles away. The bullet came straight down through the man's clothes from neck to waist, glancing off a rib and slightly injuring him. His life was saved by the fact that he was looking upward with his head held back.

Chutes and slides were crowded in the evening. A fine display of fireworks was given, including several patriotic displays. The high tide of the day and night attendance at nearly 20,000.

**CABER TOSSED BY BRAV MEN.**

CALEDONIAN CLUB'S MEMBERS MAKE MERRY AT PICNIC.

Highland Flings, Bagpipe Music, Sports and Dancing Lend to Enjoyment of Occasion—Two Hundred and Twenty-Pound Florist Wins High Jump—List of Victors.

The Caledonian Club of Los Angeles, loyal to both the mother country and its adopted home, observed Independence Day with a picnic at Indian Crafts Exhibition Park, yesterday.

There were bagpipe music, Highland flings, athletic "stunts" of all kinds, and abundance of Scotch luncheons on the grass in the cool shade of the trees, and in the evening, dancing in the pavilion. But the event of the day was the tossing of the caber, a sport which appeals to all Scots, from the young man to the old man, for it is a game that none but "brav men" may take part in.

The caber is a stick of wood which must weigh not less than 150 pounds. It is seventeen feet long, eight inches in diameter at the butt and four inches thick at the smaller end. The players take it by the smaller end, and holding it upright, advancing with mincing steps and toss it forward. The small end is given an upward throw so as to cause the big stick to turn a somersault. The throw, measured from where the butt falls to the feet of the tosser. Failure to turn the stick over bars the toss. The caber used yesterday was made of the trunk of a young Scotch pine, which was cut down in the morning, and was made as heavy as lead by the sap it contained. It was tossed by a man named John McEwen, who is a native of Scotland, and there were many spectators who were not only interested in the game, but also in the music and dancing.

The danger of demagogues fooling the people was the keynote of an address by J. L. Pitzer at the Independence Day celebration. At Hollenbeck Park yesterday afternoon. The danger to this country from within, and not from without, was the point he emphasized.

"We must frown upon any set of men," he declared, "seeking to array one class against another; there should never be any gulf between classes in this country; we are brethren all, and we must carry the reflection of the flag in our hearts. The patriot is one who meets conditions as he finds them, and does what he can to improve the position of his fellow-man. This nation has nothing to fear from Japan, England, Germany or any other country, for the only enemy we have is within our borders."

It seemed as if all Boyle Heights had turned out for this celebration, which was held under the auspices of the Fourth of July Committee of the city, and the Scotch and Irish American Association. The official program had been arranged by a committee consisting of George Lyons, W. Bryant, D. D. Seymour, G. E. Lyon and E. A. Fuhrer.

After Dr. Pitzer's address, there was music by the Greater Los Angeles Band; prayer, by Rev. J. N. Liscomb; reading of the Declaration of Independence, by Prof. J. H. Francis, and the singing of "Star Spangled Banner" by Mrs. Nuncie Bittman, the audience and the band joining in the chorus. A flag was unfurled by the band, and the Scotch and Irish American Association, and McKinley's favorite hymn, "Lead, Kindly Light," was rendered by Master Marston.

Following is a complete list of the athletic events, and the names of the winners:

**GREAT CROWD AT EASTLAKE PARK.**

TEN THOUSAND PEOPLE JOIN IN DAY'S OBSERVANCE.

Municipal Celebration and That of New England Society Prove Drawing Attractions—Patriotic Speeches, Music and "Down East" Luncheons Give Joy to Throng.

Fully ten thousand people found their way to Eastlake Park yesterday, and celebrated the Fourth of July with a day of sports and games, and a picnic or assisted in the exercises given in the morning under the auspices of the New England Society. A noticeable feature was the very large number of children, all well behaved, and very few of them with fireworks.

The keeper of the park declared that it was a very quiet day, in comparison with former years.

The throng began to arrive at the park at a very early hour and kept coming until late in the evening. At 9 o'clock the Redondo band arrived and a group of Civil War veterans, headed by the "Star Spangled Banner," hoisted a flag over the pavilion. The band gave a concert, until 10 o'clock, when the official municipal celebration and that of the New England Society began.

While the speeches were being made near the band stand, some of the New Englanders were busy at the other side of the park, preparing a luncheon at a big stone fireplace.

The chairman of the day was Frank S. Forbes, president of the New England Society. He opened the exercises by reading the Declaration of Independence, and then turned to the speaker of the day, Mr. J. L. Pitzer.

Mr. Pitzer's address, which was heard by a large throng, was a warning against the danger of demagogues, and a call for unity and patriotism.

After Mr. Pitzer's address, there was music by the Greater Los Angeles Band; prayer, by Rev. J. N. Liscomb; reading of the Declaration of Independence, by Prof. J. H. Bundy and Bell Are Defeated in Doubles Match.

Champions Start Poorly, But Make Great Finish.

McLaughlin Easily the Best Player in Tourney.

In a sensational match that was in doubt until the end, McLaughlin and James, Coast doubles champions, defeated Bundy and Bell, the southern champions, in the deciding round of the twenty-second annual tourney at the Virginia courts yesterday afternoon.

The northerners won the last three sets in a five-set match, losing the first two sets to the challengers through the erratic playing of James, and then played in their top form the last three sets, winning the match 3-2.

## MINES AND MINING.

### DEVELOPMENT NEAR CANAANA.

Ten Million Dollar Company Is Organized.

Former California Official Its President.

Property Will Be Next to Greene-Canaana.

The Willey Canaana Copper Company has been formed with \$10,000,000 capital, to take over properties in Northern Sonora, Mex., owned by David Miller of Los Angeles and Canaana and his associates.

Gen. Henry Ide Willey, former Surveyor-General of this State, and president of the Humboldt Exploration Company of New York, that is trying to effect a reorganization of the Greene Gold-Silver Company, is president of the new corporation.

Mr. Miller has been spending several days in Los Angeles, en route to the mines. He states that a large force will be put to work at once, and the development which, while continuous for the past few months, has been on a limited scale, will be greatly extended.

The Canaana-Canaana, the most important of the properties taken over by Gen. Willey's company, is one of the richest copper properties in Northern Sonora, and ranks in size next to the Greene Canaana. The deposits have been proved large, and recent development disclosed some very high-grade rock. The properties comprise 100 acres, developed by numerous shafts and tunnels. The main tunnel has just cut through a forty-foot ledge, and is shown to be very rich, with a grade of 48 per cent, with strings that go as high as 48 per cent.

C. W. McHenry, an old-time mining man of Canaana, will have charge of development.

A shaft in one of the old workings has been sunk to a depth of 110 feet in good ore, with every indication that it will develop a big body of high grade.

A good wagon road was built by former owners from the mines to Canaana, at a cost of approximately \$20,000. Convenient emitters at the last named place afford all necessary facilities for treating ore, but the plans of the company call for the erection of a plant at the mine.

The showing in some of the properties ranks well with that of the American, the nearest of the Greene Canaana group, for which \$2,500,000 was paid. An offer of \$100,000 was recently declined for a controlling interest in the Canaana-Canaana, which is situated in the very heart of the camp, surrounded on all sides by the best properties of the Cole-Ryan people.

The ore is the same as that found in the Greene-Canaana and Canaana-Canaana, the mineralized zone being rhyolite. Some low-grade sulphide is found. From the showing already made the properties should be shipping within six months.

Report of Operation.

Report of operation of the Vulture Mines Company of Wickenburg for May, just made public, show a healthy condition, gratifying to stockholders. Development amounts to 22 feet, the most important being the opening of the vein on the No. 5 level, twenty feet north of the shaft. East and west drifts, have been cleared, and the material is being driven north to cut other veins. A mill is to be built as soon as plans under consideration are approved and material can be gotten together. Pending construction of the new mill ten stamps are being added to the old plant, and a larger engine installed.

One produced during development was treated, that sent to the mill, unsorted, averaging 19 per cent, and the recovery by amalgamation was approximately 37.15. This recovery is expected to be increased when the new plant is built and, cyanide treatment can be resorted to. An oil storage tank of 50 barrels capacity has been built at Wickenburg.

Parker Fire.

Mining men here from Parker state that camp had a narrow escape from being completely devastated by fire last week. As it was, considerable damage was done by the flames, and many buildings were gutted. The Colorado River Supply Company, McQuinn's drug store, the real estate office of N. Mitchell, and several residences were destroyed.

Everything is shaping up, however, and rebuilding will soon be under way replacing the burned structures.

PATRIOTISM AT PICNIC.

Eight Hundred Welsh People Enjoy Sports, Music and Speeches at Sycamore Grove.

Eight hundred Welsh people of Los Angeles enjoyed a picnic at Sycamore Grove yesterday. The forenoon was devoted to games and sports and the afternoon was devoted to a programme of speaking and music, which was in charge of E. W. Davies, and opened with the singing of the Welsh national hymn, "Hen Wlad y Nhaden," led by David Jones.

The principal address was made by Maj. E. B. Power, and short speeches were given by Rev. Dr. Lloyd Jenkins, Lewis Davies, president of St. David's Society of Pasadena; Daniel Jones, president of the Cambro-American Society of Los Angeles; Rev. Jewett Davies, Prof. Lock, of the Los Angeles Polytechnic High School, and Mayor Alexander.

Several Welsh hymns were sung by the audience, and solos were rendered by Robert Fritchard and R. D. Evans of Pasadena.

GRANDMOTHER'S SACRIFICE.

While Trying to Save Baby, Is Hit by Fender of Car and May Die.

Mrs. Mary McPhail, 62 years old, of No. 123 West Twenty-fourth street, probably sacrificed her own life last night to save her little grandson from death beneath the wheels of a West Adams-street car.

The eight-month-old baby was playing on the sidewalk in front of his home, attended by his grandmother. As the car approached he toddled out into the street. The baby crossed the tracks in safety just as Mrs. McPhail threw herself in front of the car to save him.

She was hit by the fender, thrown into the air, and alighted on her forehead. She suffered concussion of the brain and numerous lacerations on the head and body. Because of her age, it is feared that her injuries will prove fatal.

Scenes of Little Brown Men Join in Search for Missing Woman—No Reason Apparent.

"Little Tokio" is much disturbed over the disappearance of Mrs. Ichi Yokoyama, wife of Takashi Yokoyama, of No. 115 Rose street, who left her home about 3 o'clock last Friday night and has not since been seen.

Since the disappearance of the woman, scores of little brown men have been searching the city for her. The husband believes she has not left the city, but every trail leaving town is being watched by scouts. The husband says that he has never quarreled with his wife and cannot account for her sudden leaving of his home.

The couple came here about three years ago from Sacramento. Yokoyama is a carpenter. The woman, who may ascertain the missing woman's whereabouts the husband has offered a reward of \$2 for any information which will lead to his finding her. The woman is described as being 4 feet 7 1/2 inches tall, rather stout and has a dark birthmark under the right eye.

HOW THE LAND IS CLASSIFIED.

VISALIA OFFICE GETS NOTICE OF DECISION.

Two Lists Totalling Several News Columns Come from Washington, Showing Division Made of West Side Lands as Mineral and Non-Mineral—Outline Given Here.

SPECIAL CORRESPONDENCE OF THE TIMES.

VISALIA, July 4.—The most important document received at the Visalia land office in many months has reached here, it being the classification of many thousand acres in Kern county by the United States Geological Survey. All this land, which includes all of McKittrick and Midway and part of Sunset district, extending from the northern almost to the southern line of Kern county, was temporarily withdrawn from entry last September, pending its examination and classification by the Geological Survey. This work has now been completed, and the territory has been classified as agricultural and oil land. All lands in list No. 1 have been declared non-mineral, and restored to entry under the general land laws applicable thereto. The lands in list No. 2 have been classified as containing deposits of oil, and will be continued temporarily withdrawn pending consideration of the question of legislation to be asked for the purpose of reclassification, or sufficient evidence that any particular tract or tracts contain oil.

The local land office authorities, Register Weaver, and Receiver Smith, state that a large percentage of the land classified is already patented. The owners therefore have had the government expert their land at no cost to themselves individually. Ever since it was announced on June 7 that the Secretary of the Interior had ordered some of the land in the McKittrick district restored to entry the local land office has been receiving stacks of letters asking for information. The officers could reply to none of the letters until now, and it is not likely that they will be able to give as much information as will be found in the appended list, which is of too voluminous a nature for them to copy.

The lands in list 1 are restored to entry as agricultural land. The lands in list 2 remain withdrawn, being classified as oil land. Following is the description:

### IMPORTANT WORK OF ASSOCIATION OF MANUFACTURERS.

Seeking to Preserve Liberty Under the Law for Everybody Connected With the Industrial Interests of the Country—Prosperity Wave Is Moving Steadily Forward.

In the great fight for industrial liberty in this country there stands eminent as one of the leaders James W. Van Cleave, late president of the National Association of Manufacturers. It is against Mr. Van Cleave and the Buck's Store and Range Company of St. Louis, of which he is president, that Sam Gompers has been making his fight for the right to boycott as a principle of union laborism. It is Mr. Van Cleave who has fought the fight to a finish for the benefit of every industrial establishment in the United States.

At the present time Mr. Van Cleave is visiting several of the prominent western cities to more thoroughly interest the business people of this part of the country in the great work of the National Association of Manufacturers in doing for the industrial interests of the United States. J. Philip Bird, general manager of the association, arrived in Los Angeles yesterday to arrange a meeting of business men with Mr. Van Cleave on Thursday or Friday, and in an interview with a Times representative proved himself to be an enthusiast for industrial progress. "At the present time," he said, "the National Association of Manufacturers covers every State in the Union, but has the largest membership in Massachusetts, New York, Pennsylvania, Ohio and Illinois. The number of men in the employ of the members of the association aggregate about 2,500,000, with an estimated pay roll of nearly \$7,000,000, and an annual output in excess of \$1,000,000,000. The association has a very good record in its hearing on matters pertaining to industrial conditions."

In the New York office of the association duty is employed, as well as one that has to do with foreign and domestic collections and foreign credits of the business proper of the country. In the department of foreign credits the association has the local rating of \$2,000 foreign buyers based not only on their local financial rating, but also the composite rating of their purchasing and credit ability gathered from the manufacturers of the United States with whom they do business. All the members of the association are thus able to secure the most accurate information possible regarding the financial standing of every prominent business man in the country. In this respect the association possesses more correct information than any of the local associations, and when an inquiry is made the information sent in reply can be depended upon as nearly absolutely as anything that has to do with human agencies."

## SCHOLARSHIP CONTEST.

## RACE FOR EDUCATION WILL BE RESUMED THIS MORNING.

Miss Scherer's Turn to Head the Procession—"Lily of the Valley" Gets Unexpected Support Because She Is the Granddaughter of a Pioneer Editor Who Was One of the Founders of Pasadena.

"The Glorious Fourth" is past. The contestants for the Times scholarship did their full share in celebrating it and now will get to business again. The score list will be revised and printed again tomorrow morning. Who will head the procession tomorrow?

Miss Scherer had gained first place yesterday and had the honor of being "Lily of the Valley" over the Fourth of July. She has yet held first place and it has won it back again. Miss Scherer, Raymond Austin, Anna and Alice Capron have all been in the race, but none of them has been able to get there a second time.

Miss Scherer has been as high as second place and is fourth in line at present. By rights it ought to be her turn to wear the crown next. If any one can dethrone "Queen Constance," Miss Scherer is also a possible contender, though she is but No. 7.

Others farther down the list may achieve first honors, and the race will be a close one. The Times scholarship is a prize of \$500 and is one of the most desirable in the city. It is a prize of honor and is one of the most desirable in the city. It is a prize of honor and is one of the most desirable in the city.

Miss Lillian Waite, of the Valley of San Fernando, is working for a scholarship. She is a girl of high ability and is one of the most promising of the contestants. She is a girl of high ability and is one of the most promising of the contestants.

CO-OPERATION. AID OFFERED BY AUTO CLUB. MOTORIST BODY DECLARES AGAINST RECKLESSNESS.

Officer of Southern California Organization Writes to Chief of Police About Accident and Asks Reports About Members Grossly Violating Speed Ordinances.

M. C. Abrams, chauffeur of the automobile which ran down and killed Isaac L. Lowman at Seventh and Alameda streets, Friday evening, will be arraigned before Judge James C. Kern this morning on a charge of involuntary manslaughter.

Since the accident, Chief of Police Dishman has received many complaints against auto speeding on the residential streets on which are long stretches of pavement. Discussing the complaints, the Chief said: "It cannot be denied that there is much speeding on many of the long, well-paved streets leading to the residential districts. It is a fact well known. But the police force is so small for the territory to be covered that the evil cannot be met fairly. At present only two motorcycle men are detected, arrested and spenders and they result every day. We should have eight or ten men at that work, but it is impossible to spare them."

Yet if we had forty men on the job I do not believe it would make any difference if the courts will assume no other attitude than they have toward the small fines will not suppress the evil. Small fines have no terrors for persons who can afford to own fast automobiles. But let it be understood that fast speeding, if caught at it, means a city jail sentence, and I believe it would be good medicine. That is where the fault lies; the courts are too lenient with speeders."

The Chief yesterday received a lengthy communication from Cotton A. Smith, secretary of the Automobile Club of Southern California, in which the club expresses regret for the Lowman accident, and promises aid to the Chief in putting a stop to the practice of speeding on the streets. The letter follows: "I am directed by the officers of the Automobile Club of Southern California to express to you in no uncertain terms their regret for the shocking automobile accident which occurred at Seventh and Alameda streets, resulting in the death of our fellow-citizen, Isaac L. Lowman."

"The directors wish to go on record as being against any and all forms of reckless driving upon our city streets, and to make it plain that the policy of this club is to obey the laws upon our statute books."

"They also wish to state that should you find any members of this club, carrying the club's emblem, guilty of gross violation of our city ordinances, that you would confer a favor to this organization by reporting the same to the assistant secretary at the club headquarters, No. 223 South Hill street. They assure you of their hearty cooperation in bringing to time a certain element of motorists who seem bound to take the law into their own hands."

"If this organization harbors within its membership any who are guilty of gross violation of the law the officers wish to know it. Any assistance that you can render along this line will be greatly appreciated."

HEADQUARTERS OPEN TONIGHT. Gathering Place for Elks in Springs Street Building Replenished. The Springs street headquarters of the Elks, in the old Hamburger Building, at the corner of Franklin and N. Springs streets, will be thrown open to the general public for the first time, this evening. The Registration-Reception Committee, a body distinct from the General Reception Committee, will welcome all comers and give the people of Los Angeles an idea of what

has already been done in preparation for the coming visitors, some of whom are already here. William D. Stephens, chairman of the Special Reception Committee, will be on hand to escort guests through the mazes of purple and white tissue paper, silken pennants and banners and through all of the varied and beautiful decorations which have been placed in the special headquarters.

These decorations are probably the most elaborate interior ones which have ever been attempted here. Workmen have been engaged for more than three weeks in remodeling the inside of the big stateroom and in placing all of the tiny draperies. They will finish the work today and the headquarters will be kept open right along, ready for the reception of the great hordes which will arrive daily during the week, and a few of whom are already here.

The interior decorations are not the only ones which will attract attention. The exterior of the building is one of the finest examples of outdoor adornment in Los Angeles. Hundreds of yards of bunting, great banners of white and purple, magnificent American flags, many-antlered elk heads, studded with electric lights, all go to form a beautiful display.

TRIP FOR TROOPERS. Guardsmen from Los Angeles Will Ride to San Diego and Return for Practice.

After July 17 no new members will be received in Troop D Cavalry, N.G.C., until after the annual encampment at San Diego next month. On July 17 the boys of Troop D will start on a practice ride for a day in the environs of Los Angeles for the benefit of the new members.

On August 1 Troop D will leave for San Diego on one of the longest marches ever attempted by this National Guard organization, say the local officers, and the march will be watched with interest by guardsmen all over the country.

The boys in khaki will be mounted in heavy marching order. Each soldier will carry with him on his horse saddle bags, blanket, shelter half-roll tent, a saber, a rifle and a six-shooter. By bivouacking each night near a city town, the troop will escape the necessity of carrying other supplies. Five days will be spent on the trip each way, and the boys will arrive at San Diego, California, at which point the citizens of Anaheim, San Juan, Carlsbad and Escondido, at which points the boys will stop on their march, are reported to be preparing a warm welcome for the guardsmen.

At San Diego Capt. F. B. Fay and the members of the Fifth Artillery Corps will do everything possible to make pleasant the sojourn of the Los Angeles lads. Through the permission of the Board of Education, camp will be pitched on the Russ High School oval. This location will provide an ideal camping spot, connected by good roads with the parade ground.

ITO VISITS EMPEROR. SEOUL, July 6.—Prince Ito, former resident general of Korea and now president of the privy council of Japan, arrived today to pay a farewell visit to the Emperor of Korea. The Prince received a tremendous ovation on his arrival and was immediately granted an audience with the Emperor.

night by a frequent desire to urinate. As time went on, my trouble became worse, and my nerves began to give way under the strain.

"I tried numerous remedies and treated with various physicians, but obtained no relief. When Mr. Cooper came to Joliet I was convinced that his theories regarding the cause of ill health were correct, and decided to give his medicine a trial. The first bottle of the New Discovery preparation afforded me great relief, and I have gained steadily ever since. My rest at night is unbroken and refreshing, my nerves are stronger, and I feel better in every way. I deeply appreciate the benefit I have derived from Cooper's New Discovery—it has made a new man of me."

COULD NOT OBTAIN HIS REST AT NIGHT. Trouble Overcome Barely in Time To Avoid Nervous Breakdown.

The following information will be interesting to persons suffering from weakness of the kidneys and bladder. It is given by J. H. Barnes, R.F.D. No. 5, Maple Road, Joliet, Ill., who has become an enthusiastic believer in the theories and medicines of L. T. Cooper, which were introduced in Los Angeles a few months ago. The Cooper medicines are still having an extensive sale at the Owl Drug Stores in this city, and in fact are more popular now than ever. Mr. Barnes says: "For years I suffered intensely from kidney and bladder trouble. At times the pain in my back was terrible, making it difficult for me to get around. WE ARE the only firm in Los Angeles which handles Alfred Benjamin suits. And it's well worth critical dressers' while to go a few blocks out of their way to see them.

Alfred Benjamin garments represent everything that is best in men's clothing, the styles are correct and the latest thought of master clothes designers is noticeable. The workmanship is faultless—every suit is hand-tailored, and the man "who is hard on his clothes" will have no fault to find with the wear. You can see all these features at a glance. Alfred Benjamin suits were made for men who know, by men who know.

DELEGATE APPOINTED TO REPRESENT IMPERIAL COUNTY.

May Discuss Situation With Secretary of Interior While at Alaska-Yukon Exposition—Work Begins on Fine High School Buildings—Industrial Training.

Imperial, July 5.—The Board of Supervisors of Imperial County has designated J. B. Parasette as the official representative of this county at the Alaska-Yukon Exposition at Seattle, where the government officials will visit the Alaska-Yukon Exposition.

GROUND BROKEN. Ground has been broken for the first of the two buildings to be erected for the new home of the Imperial Valley High School. The first will be the manual training school building, and this is to be completed so that it may be used for the new school.

ANGELINO ENGAGED. The Imperial City Trustees have engaged A. L. Sonderger of Los Angeles as consulting engineer for the municipal water system. It is proposed to install one which will protect the water before it is forced into the distributing mains.

“CRACK”—SCRAMBLE. Demonstration of Operation of Match of New-Fangled Kind Clears the Streets.

An ambitious woman clerk, a new-fangled match and a pile of fireworks caused a wonderful display of daylight pyrotechnics yesterday morning at the candy store conducted by Irving M. Purdy at No. 211 West Broadway. Incidentally the entire stock of fireworks was ignited, causing a loss of \$200, and the building was damaged to the tune of \$100 by fire before the hose wagons arrived.

HEINE AND THE HOHENZOLLERN. Kaiser's Revenge on Great Poet's Memory Stir Up Wrath of Literary Element in Germany.

LONDON, June 16.—Literary and artistic Germany has just been deeply stirred by an action on the part of Emperor William which appears to be a wanton insult to the memory of one of Germany's great men; one, indeed, who (if the judgment of intellectual people all over the world be consulted) effects the brightest glory on his country as a home of letters. The Kaiser has sold for £500 (\$2500) a statue of the poet Heine, which once stood in a temple attached to the villa erected in Corfu by the late Empress Elisabeth of Austria, the beautiful woman who died at the hands of an assassin in Geneva eleven years ago. It is considered by German literary men no mitigation that the statue has been sold to Herr Julius Knappe of Hamburg, although he is a member of the publishing-house which originally produced the works of Heine. Artistic feeling, it appears, has been outraged by the very fact of the statue's removal from its temple and its disposal as though it were a piece of unnecessary furniture. Some of the Kaiser's offended subjects have not hesitated to describe the act as a paltry piece of revenge on the dead genius for his strictures on the Hohenzollerns.

It is, however, no new resolve on the part of the Emperor William to remove the statue from Corfu. When he bought the Achilleion, as the famous villa is called, as a summer residence for himself whenever he should be cruising in the Mediterranean, he was already credited with the intention of converting Heine's temple into a memorial chapel for the murdered Elisabeth herself. He can, therefore, at least plead that he is performing a pious duty when he takes steps to commemorate the imperial designer in the grounds of the building which she planned and had erected for herself by the Italian architect Corbelli.

Wildly extravagant as was the Empress Elisabeth in her craze for building and decorating the Achilleion was perhaps her greatest folly in her selection of the Italian architect Corbelli. The Coroner took charge of the case.

LAST ROLE AT THE BURBANK. The role of Prof. Moriarty in “Sherlock Holmes” will be the last. A. B. Ryan Reesley will play at the Burbank until he succeeds William as the leading man of that organization, either late in August or early in September. Mr. Reesley goes on his vacation next week, returning only in time to say good-by to “Bill” upon his departure for Portland.

### MANY STILL SPECULATING ON OUTCOME OF ROAD RACE.

SPECULATING on the outcome of the big Santa Monica road race for the Ferris and Shetler cups, on July 10, continues to furnish pastime for a great many people who think they can come very near naming the winners and forecasting the time in which the rich trophies will be won.

Many are carefully reading all that is being published from day to day about the machines entered and their drivers, some are daily visitors to the course to witness the preliminary tryouts, and others are haunting the garages to get the latest "dope" on which to base their estimates.

Only four days remain before the great race will be run. Those who are not sure that they have yet picked the winning cars and correctly estimated the speed, they will make have just four days more in which to register their guesses. Remember the first ten to make the right, or nearest guess, will receive valuable prizes.

There is no change in the order of the standing of the various cars entered, since last report. The Apperson, Locomobile, Thomas and Chalmers-Detroit are still the heavily-backed cars in the heavy class for the Ferris Cup. The Chalmers-Detroit, Buick, Cadillac, Durocar and Stoddard-Dayton remain the favorites in the light class for the Shetler Cup.
